Remarks

Page 1, paragraph [003] of the specification has been amended to change the issue date of U.S. Patent No. 4,365,440 from November 22, 1964 to December 28, 1982.

The claims have been amended to more particularly address the invention. The amended claims are based on claims prepared for a PCT application.

Election Requirement:

The Examiner has issued a restriction requirement. The Applicant believes that in view of the amendments made to the claims, this restriction is moot. The sole method claim, Claim 40, is written in dependent form.

If the Examiner still feels that a restriction must be made between method and apparatus claims, the Applicant elects with traverse the apparatus claims as exemplified by Claims 21-39 now pending.

The Examiner has requested that an election be made between species as exemplified by the Figures for search. The Applicant elects the species of Figures 2-3C (the dispensing variant). The following claims read on Figures 2-3C: Claims 21-34; 38 and 39.
